FOR IMMEDIATE RELEASE

Introducing GLAMBOT: The Ultimate Robotic Camera Arm for Experiential and Live Events

Toronto, Ontario - Digital Mirror, a leading event technology company, is proud to announce the launch of GLAMBOT, the latest innovation in live event technology. GLAMBOT is a high-speed robotic camera arm designed specifically for experiential and live events. It has the capability to shoot and edit cinematic-quality content within seconds.

GLAMBOT offers a unique linear motion that captures silky smooth slow-motion red carpet moments, delivering the ultimate entertainment experience. Compared to other #redcarpetrobots currently available in the market, GLAMBOT offers a greater range of motion and unparalleled video quality.

"GLAMBOT is a game-changer in the world of live events and activations," said Richard, Digital Mirror's spokesperson. "It offers a cinematic movement that produces stunning slow-motion video quality. It is the perfect addition to any event, whether you're hosting a corporate brand activation or a private social event."

GLAMBOT's high-speed camera arm ensures that every movement is captured in real-time, producing smooth and seamless video footage. Its unique features allow guests to see themselves in a whole new light, providing instant feedback on their performance. GLAMBOT captures the essence of the moment, preserving memories that will last a lifetime.

At Digital Mirror, we understand the importance of branding. That's why we offer custom branding options for your event. Our team of experts is ready to work with you to create unique branding options that will add to the overall ambiance of your event.

To inquire about booking availability and discuss your upcoming live special events, movie premier or brand activations, please contact us to speak with our experts. If you would like to receive a full quote for your event reach us directly by phone at (416) 450-0450 or by email at richard@digitalmirror.ca.
